

Presentation Date	Presentation Code No.	Abstract Title	Presenting Author
15-Sep	P1-BT01	Comparing the effects of inappropriate empirical antibiotic therapy on mortality in adults with community-onset grampositive and gram-negative bacteremia	CHING-CHI LEE, Taiwan
15-Sep	P1-BT02	Clinical predictors for <i>Stenotrophomonas maltophilia</i> bacteremia in adult patients with hematologic malignancy	Siho Kim, Korea
15-Sep	P1-BT03	Effect of aromatic compound metabolism on chloramphenicol influx in <i>Acinetobacter baumannii</i>	Woojun Park, Korea
15-Sep	P1-BT04	Study of bacteriuria in pregnant women and determination of their antibiotic susceptibility patterns	Manijeh Mehdinejad, Iran
15-Sep	P1-BT05	Type VI secretion system regulated by RpoN in <i>Proteus mirabilis</i>	Shwu-Jen Liaw, Taiwan
15-Sep	P1-BT06	Study of microorganisms and its antimicrobial effect on various intracanal medications used in the infected root canals	Ratna Baral, Nepal
15-Sep	P1-BT07	<i>Bacteroides fragilis</i> enterotoxin upregulates neme oxygenase-1 in dendritic cells via a mitogen-activated protein kinases- and Nrf2-dependent pathway, leading to inhibition of dendritic cell maturation	Jung Mogg Kim, Korea
15-Sep	P1-BT08	The genetic diversity of <i>Pasteurella multocida</i> by comparing ompH gene sequence	Yahya Tahamtan, Iran
15-Sep	P1-BT09	Surveillance for bacterial diarrhea and antimicrobial resistance in Gwang-ju city, South Korea: 2012–2016	kwanggon kim, Korea
15-Sep	P1-BT10	Comparative genomic analysis of global clone 2 <i>Acinetobacter baumannii</i> clinical isolates during bloodstream infection	lihua guo, China(P.R.C)
15-Sep	P1-CM01	<i>Acinetobacter baumannii</i> pRAY plasmids – An age-old, stealthy vehicle for the transmission of aminoglycoside resistance, overlooked	Soo Sum Lean, Singapore
15-Sep	P1-CM02	Procalcitonin rapid test: Adjunct biomarkers in early detection of bacterial sepsis with its prognostic value	Siti Norbahiyah Awad, Malaysia
15-Sep	P1-CM03	MALDI-TOF mass spectrometry for the detection of endemic IMP-8-producing <i>Enterobacter cloacae</i> complex clones	Jing-Jou Yan, Taiwan
15-Sep	P1-CM05	Evaluation of the performance of GoldNano Carb test for carbapenemase detection in Gram-negative bacteria	Arpasiri Srisrattakarn, Thailand
15-Sep	P1-CM06	Audit of the Impact of Selective Reporting of Fluoroquinolone Susceptibility on Prescribing Habits in A Tertiary Hospital	Geraldine Foo, Singapore
15-Sep	P1-CM07	Impact of antibiotic restriction on microbial resistance in pediatric cardiac intensive care unit (PCICU)	reni fitriasari, Indonesia
15-Sep	P1-CM08	Introduce the first triple Dot-ELISA diagnostic kit for <i>Neospora caninum</i> , IBR and BVDV	Mehdi Namavari, Iran
15-Sep	P1-CM09	Evaluate the role of the microbiological molecular Biology tests in the early detection of pathogens causing lower respiratory infections	Van Pham Hung, Vietnam
15-Sep	P1-CM10	Production and evaluation of the kit using magnetic silica coated nano-iron beads to extract the nucleic acid from different samples	Van Pham Hung, Vietnam

15-Sep	P1-CM11	Clinical usefulness of the time-to-positivity/procalcitonin ratio in predicting true bacteremia	Sun Bean Kim, Korea
15-Sep	P1-GN01	Mechanisms responsible for the fluoroquinolone resistance in <i>Citrobacter freundii</i> clinical isolate	Jung Hun Lee, Korea
15-Sep	P1-GN02	Stability of trimethoprim-sulfomethoxazole resistance genes in a strain of non-typeable <i>Haemophilus influenzae</i>	Zaini Mohd-Zain, Malaysia
15-Sep	P1-GN03	$\beta$ -Lactamase production and antibiotic susceptibility pattern of <i>Moraxella catarrhalis</i> isolates collected from two county hospitals in China	Wei Shi, China(P.R.C)
15-Sep	P1-GN04	Prevalence and antimicrobial drug resistance pattern of early urinary tract infection among renal transplant recipients in Nepal	rajeshwori shrestha, Nepal
15-Sep	P1-GN05	Characterization of integrons and antibiotic resistance to <i>E. coli</i> from cattle, sheep and goats in Iran	Yahya Tahamtan, Iran
15-Sep	P1-GN06	Horizontal gene transfer of antibiotic resistance genes among <i>Acinetobacter baumannii</i>	Sutthirat Sitthisak, Thailand
15-Sep	P1-GN07	Fecal carriage of carbapenem resistance Enterobacteriaceae among inpatients in a university hospital in Iran	fereshteh shahcheraghi, Iran
15-Sep	P1-GN08	Successful control of carbapenemase producing Enterobacteriaceae outbreak in two different hospitals	Jung Wan Park, Korea
15-Sep	P1-GN09	Characterization of copper resistance determinants among <i>Acinetobacter baumannii</i> clinical isolates	Rapee Thummeepuk, Thailand
15-Sep	P1-GN10	Concentration gradient carbapenem exposure alters the plasmid copy number within nosocomial isolates of <i>Escherichia coli</i> harboring blaOXA-48	Deepjyoti Paul, India
15-Sep	P1-GN11	Assessment of $\beta$ -lactamase- and efflux pump-mediated antibiotic resistance in <i>Salmonella Typhimurium</i>	Lae-Seung Jung, Korea
15-Sep	P1-GN12	Antimicrobial Resistance (AMR) pattern in fecal flora of different communities in Nepal	basista Rijal, Nepal
15-Sep	P1-GN13	An 11-year experience of carbapenem-resistant <i>Acinetobacter baumannii</i> and carbapenem-resistant <i>Pseudomonas aeruginosa</i> bacteremia	Eunbeen Cho, Korea
15-Sep	P1-GN14	Carbapenem-resistant enterobacteriaceae isolated from bile in patients with biliary obstruction: epidemiology and outcome	HOJIN LEE, Korea
15-Sep	P1-GN16	<i>in vitro</i> activity of tigecycline and comparators against multi drug resistant (MDR) Enterobacteriaceae in Africa the Middle East (AFME), and Asia-Pacific (AP) regions—TEST DATA 2012–2016	Daryl Hoban, U.S.A(Mainland)
15-Sep	P1-GN17	<i>In vitro</i> activity of tigecycline and comparators against <i>Klebsiella pneumoniae</i> collected from Africa -Middle East (AFME), and the Asia-Pacific (AP) regions: TEST 2010–2016	Aaron Johnson, U.S.A(Mainland)
15-Sep	P1-GN18	Antimicrobial susceptibility status of Multidrug Resistant (MDR) Enterobacteriaceae collected in Latin America: TEST Program Data (2012–2016)	Aaron Johnson, U.S.A(Mainland)
15-Sep	P1-GN19	<i>In vitro</i> activity of tigecycline and comparators against gramnegative bacilli from China: TEST 2004–2016	Daryl Hoban, U.S.A(Mainland)
15-Sep	P1-GN20	<i>In vitro</i> activity of tigecycline and comparators against gramnegative bacilli from Singapore, Malaysia, and the Philippines: TEST 2004–2016	Daryl Hoban, U.S.A(Mainland)

15-Sep	P1-GN21	In vitro activity of tigecycline and comparators against gramnegative bacilli from Hong Kong and Taiwan: TEST 2006–2016	Daryl Hoban, U.S.A(Mainland)
15-Sep	P1-GN22	Multidrug resistant Gram negative bacilli with special reference to New Delhi Metallo beta lactamse producers: an experience from a tertiary care hospital in Eastern Nepal	Basudha Khanal, Nepal
15-Sep	P1-GN23	A retrospective, comparative analysis of risk factors and outcomes in carbapenem-susceptible and – nonsusceptible Klebsiella pneumoniae bloodstream infections	Tingting Xiao, China(P.R.C)
15-Sep	P1-GN24	Complete genome sequence and genomic characterization of two clinical Escherichia coli strains co-producing MCR-1 and NDM-1	Xiao Yu, China(P.R.C)
15-Sep	P1-GN25	Colistin-resistant carbapenem-non-susceptible Klebsiella pneumoniae isolates from a Thai university hospital	Aroonwadee Chanawong, Thailand
15-Sep	P1-GN26	Imipenem-hydrolyzing $\beta$ -lactamase-1 (IMI-1)-producing Enterobacter cloacae isolates from Thailand	Kamonwan Lunha, Thailand
15-Sep	P1-GN27	Carbapenemase-producing Enterobacteriaceae surveillance in Malaysian hospitals	Norazah Ahmad, Malaysia
15-Sep	P1-GN28	Trends in extended-spectrum $\beta$ -lactamase (ESBL) production and susceptibility of E. coli from urinary tract infections in Southeast Asia: SMART 2012–2016	Daryl Hoban, U.S.A(Mainland)
15-Sep	P1-GN29	Lessons learnt from the first 4 cases of NDM bacteremia in a Singapore hospital	Seow Yen Tan, Singapore
15-Sep	P1-GN30	First emergence of IMP-4-producing Enterobacter cloacae in Korea	Il Kwon Bae, Korea
15-Sep	P1-GN31	The resistance of the gram-negative rods isolated from clinical cases in vietnam to doripenem	Van Pham Hung, Vietnam
15-Sep	P1-GN32	Prognostic factors associated with survival from carbapenem-resistant Acinetobacter baumannii bacteremia in patients who did not receive appropriate antibiotics	TARK KIM, Korea
15-Sep	P1-GN33	Antimicrobial susceptibility patterns for recent clinical isolates of anaerobic Gram-negative bacilli in Korea	Yangsoon Lee, Korea
15-Sep	P1-GN34	Degradation of $\beta$ -lactam antibiotics by outer membrane vesicles (OMVs) released from $\beta$ -lactam-resistant Escherichia coli that effects the survival of $\beta$ -lactam-susceptible Escherichia coli	Si Won Kim, Korea
15-Sep	P1-GN37	Antibiotic susceptibilities of Escherichia coli and Klebsiella pneumoniae from intra-abdominal infections: 5-year trend in a tertiary hospital in Malaysia	nurulhuda umur adli, Malaysia
15-Sep	P1-GN38	Antibiotic susceptibilities of Escherichia coli and Klebsiella pneumoniae from urinary tract infections: 5-year trend in a tertiary hospital in Malaysia	nurulhuda umur adli, Malaysia
15-Sep	P1-GN39	Radiation-induced mutagenesis: a novel approach to reverse the carbapenem resistance in Klebsiella pneumoniae	Roshan Dsouza, Korea
15-Sep	P1-GN41	Challenges in selecting antibiotics treatment for H. pylori in Vietnam	Van Pham Hung, Vietnam
15-Sep	P1-GN42	Growing rates of multidrug resistance and extended spectrum $\beta$ -lactamase genes among uropathogenic Escherichia coli at a Teaching Hospital of Nepal	Balkrishna Awal, Nepal
15-Sep	P1-GN43	Non-carbapenem therapy against acute pyelonephritis with extended-spectrum $\beta$ -lactamase producing Enterobacteriaceae comparing with carbapenems	JUNG JU KIM, Korea

15-Sep	P1-GP01	Increase isaA and rplN gene expression in low-level vancomycin-resistant Staphylococcus aureus	Aroonlug Lulitanond, Thailand
15-Sep	P1-GP02	Species distribution and antimicrobial susceptibility profiles of clinical Nocardia species in a large tertiary hospital in Australia	Yen Ee Tan, Singapore
15-Sep	P1-GP03	Inducible clindamycin and methicillin resistant Staphylococcus aureus in a tertiary care hospital, Kathmandu, Nepal	Ram Prasad Adhikari, Nepal
15-Sep	P1-GP04	Comparison of host defense cationic antimicrobial peptide resistance between ST72-SCCmecIV and ST5-SCCmecII MRSA clinical isolates	Kang Kyoung-Mi, Korea
15-Sep	P1-GP05	Retrospective analysis of Staphylococcus lugdunensis susceptibility	POOJA RAO, Singapore
15-Sep	P1-GP06	Preliminary study of RNA polymerase $\beta$ subunit (rpoB) gene mutations in vancomycin-susceptible and non-susceptible Staphylococcus aureus isolates from a Thai university hospital	Sujintana Wongthong, Thailand
15-Sep	P1-GP07	A genome-wide association study in ST5 lineage of vancomycin intermediate Staphylococcus aureus to identify genes influencing susceptibility to vancomycin	Jung Wook Kim, Korea
15-Sep	P1-GP08	Phenotypic and molecular characterization of small colony variants of vancomycin-resistant Enterococcus faecium (VREF) rectal isolates	Hye Mee Kim, Korea
15-Sep	P1-GP09	Change of genotype distribution in methicillin-resistant Staphylococcus aureus (MRSA) clinical isolates in Korean hospitals over the past 1.5 decades	Yu Ri Kang, Korea
15-Sep	P1-HI01	Identification of Helicobacter pylori in water sources in Makassar	Iin Utami, Indonesia
15-Sep	P1-HI02	Surveillance study of Japanese encephalitis: an emerging infectious disease in India	Ravi Kant, India
15-Sep	P1-HI03	The epidemiological link between Methicillin-resistant Staphylococcus aureus (MRSA) colonised patients and the hospital environment	Hei Man Wong, Singapore
15-Sep	P1-HI04	Knowledge relating to use of antibiotics at a University in Sri Lanka	Nilanthi Senanayake, Sri Lanka
15-Sep	P1-HI05	Contact Patterns and Hand Hygiene Practices of MRSA Patients in an Acute Hospital Singapore: A Prospective Study	Jyoti Somani, Singapore
15-Sep	P1-HI06	Assessment of the initial impact of Antimicrobial Stewardship Program (ASP) on the prevalence of Multi-Drug Resistant Organisms (MDROs) and antibiotic consumption in Manila Doctors Hospital (MDH)	Allan Alde, Philippines
15-Sep	P1-HI07	Prevalence and epidemiologic characteristics of latent tuberculosis infection among healthcare workers at a hospital in Seoul, South Korea	Hae Suk Cheong, Korea
15-Sep	P1-HI08	Knowledge, attitude/practices of hand/food hygiene and observation of hand washing practices among food handlers at a University in Sri Lanka	Nilanthi Senanayake, Sri Lanka
15-Sep	P1-HI10	The effect of active surveillance of carbapenem-resistant Enterobacteriaceae (CRE) and the risk factors for acquisition of CRE in an intensive care units at a tertiary hospital	Jin Suk Kang, Korea
15-Sep	P1-HI11	Decreased trend of device-associated infection rates in intensive care units during 10 years in South Korea: findings of the Korean National Healthcare-associated Infections Surveillance System	Eun Jin Kim, Korea

15-Sep	P1-HI12	Antibiograms in South Indian Hospitals: myth or reality?	Dorairajan Sureshkumar, India
15-Sep	P1-HI13	Bundled interventions to reduce surgical site infections in obstetrics and gynaecology – interim review of a quality improvement initiative	Koh Cheng Thoon, Singapore
15-Sep	P1-MM01	Disseminated <i>Volvariella volvacea</i> infection in patients with haematological malignancies	Deborah Ng, Singapore
15-Sep	P1-MM02	Distribution of fungal isolates in new established clinical training centre, Malaysia	Norzilawati Mohd Isa, Malaysia
15-Sep	P1-MM03	Candidaemia and antifungal susceptibility testing: a description from a new clinical training centre, Malaysia	Nooraini Abu bakar, Malaysia
15-Sep	P1-MM04	Evaluation of antifungal effects of nanoliposomal fluconazole against Fluconazole susceptible and resistant <i>Candida</i> species isolated from patients in vitro and comparison with common fluconazole	Jamal Hashemi, Iran
15-Sep	P1-MM05	Impact of central venous catheter retention on outcome of <i>Candida</i> bloodstream infections in adult patients with hematological malignancies	Si-Hyun Kim, Korea
15-Sep	P1-MM06	Predictive factors for successful treatment in <i>Candida</i> bone & joint infection	Wooyong Jeong, Korea
15-Sep	P1-MM07	Vitek characterisation of Type 2 diabetes-associated <i>Candida</i> species	Pedro Abrantes, South Africa
15-Sep	P1-MM08	Identification of species and evaluation drug susceptibility of <i>Candida</i> isolated from patients with visceral candidiasis by disk diffusion and microdilution methods	mohammadreza velashgerdifarahani, Iran
15-Sep	P1-MM10	Survival analyses of <i>Candida glabrata</i> blood stream infection according to empirical antifungal agents and fluconazole MIC	Jae-Hoon Ko, Korea
15-Sep	P1-MM11	Identification using panfungal PCR and susceptibility testing for <i>Aspergillus</i> clinical isolates from hematologic patients with invasive pulmonary aspergillosis	Sung-Yeon Cho, Korea
15-Sep	P1-VA01	Non-typeable <i>Streptococcus pneumoniae</i> infection in a medical center after wide use of pneumococcal conjugate vaccine	Mei Hua Hsu, Taiwan
15-Sep	P1-VA02	Preparation of inactivated agent with different concentration of Ferric Chloride on <i>Pasteurella</i> and pathogenic bacteria	Yahya Tahamtan, Iran
15-Sep	P1-VA04	Successful evaluation of new attenuated variety of <i>Toxoplasma gondii</i> as experimental vaccine	Mehdi Namavari, Iran
15-Sep	P1-VA05	Study of live attenuated vaccine of <i>Neospora caninum</i> in BALB/c mice	Mehdi Namavari, Iran
15-Sep	P1-VA06	Anti tumor activity of a fraction of hydatid cyst fluid on colon cancer growth tumor in animal model	Shahla Rostamirad, Iran
15-Sep	P1-VA07	Cost-effectiveness analysis of Zostavax in the prevention of Herpes Zoster in Korea	Jee Yeon Kim, Korea
15-Sep	P1-VA08	Efficacy of inactivated Hantaan virus vaccine (Hantavax™) in healthy adults through the eyes of metabolomics	Adnan Khan, Korea
15-Sep	P1-VR01	Prediction of sofosbuvir response using a single nucleotide polymorphism of interferon lambda-4 gene as a predictive factor	Amal Saafan, Egypt

15-Sep	P1-VR02	Sero-prevalence of Hepatitis B amongst indigenous people in Malaysia	Syahrul Azlin Shaari, Malaysia
15-Sep	P1-VR04	Correlation between climate variability and occurrence of suspected dengue fever in West Malaysia	Siti Norbahiyah Awad, Malaysia
15-Sep	P1-VR05	Correlation of clinical illness with viremia in Zika virus disease	Deborah Ng, Singapore
15-Sep	P1-VR06	Characterization of Siphoviral Bacteriophage YMC15/11/ N54_KPN_BP that Lyses <i>Klebsiella pneumoniae</i> carbapenemase-producing <i>Klebsiella pneumoniae</i>	Jongsoo Jeon, Korea
16-Sep	P2-AG01	Open label trial on efficacy and safety of Artemether/ Lumefantrine for treatment of uncomplicated <i>Plasmodium falciparum</i> Malaria in Metehara, Eastern Ethiopia	Desalegn Nega, Ethiopia
16-Sep	P2-AG02	In vitro antioxidant and antimicrobial evaluation of Malaysian Tualang honey	NURUL MOHAMED, Malaysia
16-Sep	P2-AG03	Inhibitory effects of some selected antimicrobial peptides on biofilm formation by nontypeable <i>Haemophilus influenzae</i>	Duangkamol Kunthalert, Thailand
16-Sep	P2-AG04	In vitro pharmacokinetics/pharmacodynamics of the antibacterial moxalactam against extended-spectrum $\beta$ -lactamase-producing enterobacteriaceae	Chen Huang, China(P.R.C)
16-Sep	P2-AG05	In vitro pharmacokinetics/pharmacodynamics evaluation of fosfomycin combined with amikacin or colistin against KPC2-producing <i>Klebsiella pneumoniae</i>	Wei Yu, China(P.R.C)
16-Sep	P2-AG06	Antibiotic treatment for methicillin-resistant <i>Staphyococcus aureus</i> (MRSA) infection: the trend of their usage in relation to MRSA rate	Syahrul Azlin Shaari, Malaysia
16-Sep	P2-AG08	Activity of ceftolozane/tazobactam against carbapenemresistant <i>Pseudomonas aeruginosa</i>	Yu Mi Wi, Korea
16-Sep	P2-AG09	Comparison of antibiotic susceptibility by PCR ribotypes of <i>Clostridium difficile</i> from a tertiary hospital over 5 years in Korea	Mi-Ran Seo, Korea
16-Sep	P2-AG10	Gentamicin-intercalated smectite as a new therapeutic option for <i>Helicobacter pylori</i> eradication	Su Jin Jeong, Korea
16-Sep	P2-AG11	Antimicrobial activity of <i>Pseudomonas</i> sp. strain S3.1 against a broad spectrum pathogenic bacteria and fungi	Stella Magdalena, Indonesia
16-Sep	P2-AR01	Multidrug-resistant phenotypes and ESBLs-producing Enterobacteriaceae isolated from animal origins: High alert from Veterinary Hospital!	Paweena Kongsanan, Thailand
16-Sep	P2-AR02	Distribution and molecular profiling of class I integrons in tetracycline resistance <i>Escherichia coli</i> isolates recovered from cattle farms	Kuastros Mekonnen Belaynehe, Ethiopia
16-Sep	P2-AR03	Prevalence and antibiotic resistance profiles of <i>Staphylococcus schleiferi</i> among dogs with ear infection	GI YONG LEE, Korea
16-Sep	P2-AR04	Antimicrobial resistance and characterization of linezolidresistant Enterococci isolated from ducks in Korea	Suk-Kyung Lim, Korea
16-Sep	P2-AR05	Antimicrobial resistance and molecular characterization of <i>Escherichia coli</i> isolated from ducks in Korea	Suk-Kyung Lim, Korea
16-Sep	P2-AR07	Antimicrobial susceptibility of respiratory pathogens isolated from lungs of pigs in Korea	Young Kyung Park, Korea

16-Sep	P2-CC01	A case of multiple Abscesses due to Melioidosis: first case reported from North Sumatera, Indonesia	Ayodhia Pasaribu, Indonesia
16-Sep	P2-CC02	Use of plasma exchange followed by convalescent plasma therapy in a critically ill patient with severe fever and thrombocytopenia syndrome-associated encephalopathy	Sungim Choi, Korea
16-Sep	P2-CC03	Persistent non-typhoidal Salmonella infections in immunocompromised 4-year-old Boy	Jung-Hyun Byun, Korea
16-Sep	P2-CC04	Invasive pulmonary aspergillosis following severe community acquired adenovirus pneumonia	Hei Man Wong, Singapore
16-Sep	P2-CC06	A case of fatal sepsis by Trichosporon asahii in the immunocompetent patient	Sang-Ah Lee, Korea
16-Sep	P2-CC07	Recurrent familial furunculosis associated with Panton-Valentine Leukocidin-positive methicillin-susceptible Staphylococcus aureus ST1	Jin Young Lee, Korea
16-Sep	P2-CC08	Perihepatic abscess caused by dropped appendicolith in a 7-year old boy	Sae Rom Choi, Korea
16-Sep	P2-CC09	Failure of ciprofloxacin therapy in the treatment of communityacquired acute pyelonephritis caused by an apparently susceptible Escherichia coli strain producing CTX-type extended-spectrum $\beta$ -lactamase	Hyeri Seok, Korea
16-Sep	P2-CC10	Paradoxical response of tuberculous lymphadenitis with HIV-1 infection	Chung-Jong KIM, Korea
16-Sep	P2-CC11	Successful treatment of CRE bacteremia and abscess with fosfomycin monotherapy with drainage	Po Ying Chia, Singapore
16-Sep	P2-CE01	The distribution of Dengue virus infection in Southern part of Thailand: saturated serotype and clinical perspective	San Suwanmanee, Thailand
16-Sep	P2-CE03	Incidence of Acinetobacter baumannii in pregnant women with preterm premature rupture of membrane (PPROM)	Zaini Mohd-Zain, Malaysia
16-Sep	P2-CE04	Transmission mode of secondary infection is possible an explanation with only contact transmission in severe fever with thrombocytopenia syndrome virus?	Jeong Rae Yoo, Korea
16-Sep	P2-CE05	Hydatid cyst alive protoscolices inhibit growth of melanoma tumor on animal model	Shahla Rostamirad, Iran
16-Sep	P2-CE06	The utility and clinical factors associated with positive pneumococcal urinary antigen test for pneumococcal pneumonia in older adult patients	Jong Hun Kim, Korea
16-Sep	P2-CE07	Regional differences in epidemiology and antibiotic usage pattern of acute pyelonephritis in Korea, 2010–2014: population-based Study	Bongyoung Kim, Korea
16-Sep	P2-CE08	Multilocus sequence typing identifies unique toxigenic Corynebacterium diphtheriae clones in Malaysia	Norazah Ahmad, Malaysia
16-Sep	P2-CE09	Susceptibilityand clinical efficacy of fosfomycin against urinary isolates in patients with neobladder-related UTIs	Chung-Jong KIM, Korea
16-Sep	P2-CE11	Why are urine cultures ordered?	Louisa Sun, Singapore

16-Sep	P2-CE12	Clinical characteristics and risk factors for mortality in <i>Aeromonas</i> bacteremia	Heun Choi, Korea
16-Sep	P2-CE13	Effect of $\beta$ -lactam and glycopeptide combination therapy for methicillin-resistant staphylococcus aureus bacteremia	Heun Choi, Korea
16-Sep	P2-CE14	A multicenter study of clinical characteristics and microbial etiology in community-onset necrotizing fasciitis in Korea	TARK KIM, Korea
16-Sep	P2-CE15	A multicenter study of clinical characteristics and microbial etiology in community-onset Pyomyositis in Korea	TARK KIM, Korea
16-Sep	P2-CE16	A multicenter study of clinical features and organisms causing community-onset erysipelas in Korea	Seong Yeon Park, Korea
16-Sep	P2-CE17	Molecular epidemiology of <i>Orientia tsutsugamushi</i> from scrub typhus patients in Korea, 2016	Hang Jin Jeong, Korea
16-Sep	P2-CE18	Group A Streptococcal blood stream infection in pediatric patients: a single center study	Dongsub Kim, Korea
16-Sep	P2-CE19	Comparison of tissue direct PCR and bacterial culture method in conjunction with matrix-assisted laser desorption ionization–time of flight (MALDI-TOF) identification for detection of porcine respiratory disease complex (PRDC) in pathologic lung tissues in swine	CheongUng KIM, Korea
16-Sep	P2-CE20	Genetic identification and phylogenetic analysis of <i>Anaplasma phagocytophilum</i> msp2/p44 gene from patients with acute febrile illness in South Korea	seughnun Lee, Korea
16-Sep	P2-CE21	Pathogens and prognosis factors of ocular outcomes of endogenous endophthalmitis	Hyejin Jung, Korea
16-Sep	P2-CE22	Non- HACEK gram negative bacillus endocarditis from a developing country	Madhumitha Ramabhadran, India
16-Sep	P2-CE23	Microbiological difference of hypervirulent <i>Klebsiella pneumoniae</i> urinary tract infection compared to Liver abscess origin	ji yeon Lee, Korea
16-Sep	P2-CE24	A predictive score for bacteremia can minimize unnecessary blood cultures on admission	Renuka Murali Govind, Singapore
16-Sep	P2-CE25	Serological studies on Scrub typhus and Murine typhus from National park workers	Byoungchul Gill, Korea
16-Sep	P2-CE26	Gender difference as a potential risk factor for in-hospital mortality in <i>Staphylococcus aureus</i> bacteremia	Chang Kyung Kang, Korea
16-Sep	P2-CE27	Natural duration of colonization of KPC-producing <i>Klebsiella pneumoniae</i> and risk factors of sustained carriage	Yong Kyun Kim, Korea
16-Sep	P2-HV01	HIV screening among perceived low risk patients in a specialist centre in Malaysia	Noor Aini Abu Bakar, Malaysia
16-Sep	P2-HV03	The varied rates of immune recovery of HIV patients on HAART by age category and their implications	Shui Shan Lee, Hong Kong
16-Sep	P2-HV04	When to consider an acute HIV infection; clinical presentations of 23 consecutive cases in Korea	joonwon chae, Korea

16-Sep	P2-HV05	Clinical impact of increment of serum lactic acid in HAART-treated HIV patients	Hyejin Jung, Korea
16-Sep	P2-HV06	Atypical presentation of diffuse large B-cell lymphoma in an advanced HIV patient: multiple cystic lung lesions at variable stages	Hyun gul Jung, Korea
16-Sep	P2-OT01	A 1-year surveillance of antimicrobial resistance patterns in Korea: from Kor-GLASS data	SungYoung LEE, Korea
16-Sep	P2-OT02	In vitro antileishmanial activity of <i>Satureja khuzestanica</i> Jamzad and <i>Heracleum persicum</i> Desf. Fisch on <i>Leishmania</i> promastigotes using MTT assay	Batool Sadeghi-Nejad, Iran
16-Sep	P2-OT03	Identification of pathogenic bacteria on cosmetic testing in public shops in North Jakarta, Indonesia	Siti Aisyah, Indonesia
16-Sep	P2-OT04	Implementation of inter-sectorial "One Health" antimicrobial resistance (AMR) containment programme in Malaysia	Suraya Amir Husin, Malaysia
16-Sep	P2-OT05	Hydatid cyst alive protoscolices inhibit growth of melanoma tumor on animal model	Shahla Rostamirad, Iran
16-Sep	P2-OT06	Utilization of deep-seawater as a curing solution alternatives in processing of meat products	JAEHEE KIM, Korea
16-Sep	P2-OT07	The in-vitro activity of Sitafloxacin against the most common bacterial pathogens isolated from the clinical samples	Van Pham Hung, Vietnam
16-Sep	P2-OT08	Activation of the coagulation cascade in patients with scrub typhus	Hee-Jeong Lee, Korea
16-Sep	P2-OT09	Comparison of author satisfaction between in-house and external editing services	Joon Seo Lim, Korea
16-Sep	P2-OT10	Detection of <i>Borrelia</i> spp, <i>Anaplasma</i> spp, <i>Rickettsia</i> spp in Ticks collected Gwang-ju metropolitan area using polymerase chain reaction	jungwook park, Korea
16-Sep	P2-OT11	Does current academic training prepared medical technologist (microbiology) in a dynamic world of laboratory medicine?	Chiou Horng Ong, Singapore
16-Sep	P2-TM01	Optimum number of sputum specimen required to diagnose tuberculosis, in an intermediate-burden country	Syahrul Azlin Shaari, Malaysia
16-Sep	P2-TM02	Prevalence of MPT64 Ag negative <i>Mycobacterium tuberculosis</i> complex strains isolated from clinical specimens in Korea	Yong-Kyun Kim, Korea
16-Sep	P2-TM03	Neonatal splenic and hepatic tuberculosis: case report and review of the literature	yang zixin, China(P.R.C)
16-Sep	P2-TM04	Antimycobacterial susceptibility pattern of <i>Mycobacterium tuberculosis</i> in an intermediate tuberculosis Burden, Asian Country	Syahrul Azlin Shaari, Malaysia
16-Sep	P2-TM05	Comparison between 12, 15 and 24 loci MIRU-VNTR genotyping of <i>Mycobacterium tuberculosis</i> strains	Shui Shan Lee, Hong Kong
16-Sep	P2-LB01	Lauric acid is a potent inhibitor of <i>Clostridium difficile</i> growth in vitro and reduce inflammation in mouse model of infection	I-HSIU HUANG, Taiwan
16-Sep	P2-LB02	Discovery of antisense peptide-peptide nucleic acids against fluoroquinolone-resistant <i>Escherichia coli</i>	June Bong Lee, Korea

16-Sep	P2-LB03	Elevated dose of enrofloxacin is urgent to treat Salmonella enteritidis infection in broiler chicken	JeongWoo Kang, Korea
16-Sep	P2-LB04	Antimicrobial resistance of bovine and porcine pathogens in Korea	Yu-Ran Lee, Korea
16-Sep	P2-LB05	Metagenomic Insights of exopolysaccharides-producing streptococcus thermophilus klds 3.1003, a potential probiotic strain	Smith Evivie, China(P.R.C)
16-Sep	P2-LB06	High in vitro activity of Meropenem/RPX7009 against KPC-producing Enterobacteriaceae in China	Qiwen Yang, China(P.R.C)
16-Sep	P2-LB07	Prevalence of virulence factors of enterotoxigenic Escherichia coli and Clostridium difficile isolated from suckling and weaning pigs	Kwang-Ho Choi, Korea
16-Sep	P2-LB08	A rare reported case of tuberculosis complicated by Esophago mediastinal fistula in association with left subclavian pseudoaneurysm	Lama AlHomayin, Saudi Arabia
16-Sep	P2-LB09	Diagnosis of active and relapsed cases of human brucellosis	Zahra Moulana, Iran
16-Sep	P2-LB10	A retrospective study of invasive bacterial infections in children with asplenia	YONGJOON CHOE, Korea
16-Sep	P2-LB11	Serological study on lyme disease in national park workers in South Korea	Kang Mo Lee, Korea
16-Sep	P2-LB12	Incompatibility between Influenza virus and human rhinovirus by the correlation analysis through Korea Influenza and Respiratory Viruses Surveillance System (KINRESS)	Min Gu Kang, Korea
16-Sep	P2-LB13	Streptococcus pneumoniae Isolates from a multicenter surveillance in China 2011 to 2016: serotype distribution, antibiotic resistance and molecular epidemiology	Chunkiang Zhao, China(P.R.C)
16-Sep	P2-LB14	Seasonality of viral respiratory infection in the northern UAE	JAEHYUN JEON, United Arab Emi-rates
16-Sep	P2-LB15	Characteristics and Impact of Antibiotic Selection on Outcomes in Patients with Culture-negative Pyogenic Spondylitis	Yong Dae Lee, Korea
16-Sep	P2-LB16	Clinical characteristics and time to serologic diagnosis after symptom onset of confirmed Q fever patients in a tertiary hospital of Korea	Hye Won Jeong, Korea
16-Sep	P2-LB17	Clinical characteristics and risk factors for persistent or relapsing S. maltophilia bacteremia	Seung ji Kang, Korea
16-Sep	P2-LB18	Development of a multiplexed opsonophagocytic killing assay (MOPA) for group B Streptococcus	Minjoo Choi, Korea
16-Sep	P2-LB19	Development of real time RT-PCR for five species of hantaviruses detected in South Korea	Ye-Ji Lee, Korea
16-Sep	P2-LB20	Laboratory findings of Brucella melitensis in South Korea	SEON DO HWANG, Korea
16-Sep	P2-LB21	Delta neutrophil index as a diagnostic and prognostic marker of candidemia in hospitalized patients	So Yeon Park, Korea
16-Sep	P2-LB22	Treatment outcome of pneumonia due to carbapenem-resistant Acinetobacter baumannii complex	Won Suk Choi, Korea

16-Sep	P2-LB23	Molecular epidemiology and microbiological characteristics of multidrug-resistant non-extended-spectrum $\beta$ -lactamase-producing <i>Escherichia coli</i> causing bacteremia	Min Kyeong Cha, Korea
16-Sep	P2-LB24	In vitro synergistic activity of antimicrobial agents in combination against clinical isolates of colistin-resistant <i>Acinetobacter baumannii</i>	JUNHEE WOO, Korea
16-Sep	P2-LB25	Characterization of colistin-resistant <i>Escherichia coli</i> with <i>mcr-1</i> harboring plasmid	Yujin Choi, Korea
16-Sep	P2-LB26	Persister formation in <i>Acinetobacter baumannii</i> clinical isolates	MiSuk Baek, Korea
16-Sep	P2-LB27	Development of colistin dependence in <i>Acinetobacter nosocomialis</i>	Yoon-kyoung Hong, Korea
16-Sep	P2-LB28	Species distribution and molecular characteristics of CRE/CPE isolates from Korea	Eunbyeul Go, Korea
16-Sep	P2-LB30	The features of multi-drug resistant organisms in tertiary hospital in Indonesia: A one-year hospital based study	Lardo, Indonesia
16-Sep	P2-LB31	Risk factors for community-onset pneumococcal pneumonia caused by levofloxacin non-susceptible <i>Streptococcus pneumoniae</i>	Hyeri Seok, Korea
16-Sep	P2-LB32	The correlations between fraction inhibitory concentration index and mutant selection index in an antimicrobial combination	Ganjun Yuan, China(P.R.C)
16-Sep	P2-LB33	Characterization of extensively drug-resistant (XDR) <i>Streptococcus pneumoniae</i> serotype 11A strains in Korea by whole-genome sequencing	Jin Yang Baek, Korea
16-Sep	P2-LB34	Clonal distribution of macrolide-resistant <i>Streptococcus pneumoniae</i> isolates from adult patients in Korea between the 2008–2009 and 2012–2016 periods	Jin Yang Baek, Korea
16-Sep	P2-LB35	Comparison of vancomycin susceptibility between CLSI method and automated instrument	Joo seongjae, Korea
16-Sep	P2-LB36	Rifampin resistance of <i>Staphylococcus epidermidis</i> : Molecular characterization and fitness cost of mutations in the <i>rpoB</i> gene	Yu Mi Wi, Korea
16-Sep	P2-LB37	Antimicrobial resistance of <i>Streptococcus pneumoniae</i> isolates from adult patients with invasive pneumococcal disease or pneumonia in Asia	So Hyun Kim, Korea
16-Sep	P2-LB38	Changes in serotype distribution of <i>Streptococcus pneumoniae</i> isolates from adult patients with invasive pneumococcal disease or pneumonia in Asia	So Hyun Kim, Korea
16-Sep	P2-LB39	High incidence rates of acquiring multi-drug resistant organisms (MDRO) colonization during hospitalization in non-intensive care settings	Susan Shin-Jung Lee, Taiwan
16-Sep	P2-LB40	Presence and characterization of <i>mcr-1</i> gene and carbapenemase gene in sewage water of five tertiary-care hospitals in Beijing	LONGYANG JIN, China(P.R.C)
16-Sep	P2-LB43	Species distribution and antifungal susceptibilities of <i>Candida</i> clinical isolates from 14 tertiary hospitals in Korea	Ju-hyeon Shin, Korea
16-Sep	P2-LB44	Introduction of one health approach to antimicrobial resistance in Korea	Il-Hwan Kim, Korea
16-Sep	P2-LB45	Prevalence of immunoglobulin G in bovine colostrum and colostrum replacement products	Youngmin Son, Korea

16-Sep	P2-LB46	Application of Single-nucleotide polymorphisms as genotyping for <i>Mycobacterium bovis</i> isolates from South Korea	Yunho Jang, Korea
16-Sep	P2-LB47	Discovered distributable gene gap in PE-PGRS 50 gene by molecular analysis of <i>Mycobacterium bovis</i> strain isolates and <i>Mycobacterium tuberculosis</i>	Min Kyu Jeong, Korea
16-Sep	P2-LB48	Prevalence and risk factors for bovine tuberculosis in South Korea	Yu Sin Ok, Korea
16-Sep	P2-LB49	Compliance of treatment of latent tuberculosis health care workers in an intermediate tuberculosis burden country	Youn Jeong Kim, Korea
16-Sep	P2-LB50	Detection of <i>Mycobacterium bovis</i> in herd environmental samples by nested-PCR for rapid identification	Tae-woon KIM, Korea
16-Sep	P2-LB51	Diagnostic performance of QuantiFERON-TB Gold assay in Patients with extrapulmonary tuberculosis in BCG vaccinated intermediate-TB endemic area	Youn Jeong Kim, Korea
16-Sep	P2-LB52	The potential of an effective anti-tubercular candidate agent of next-generation, and <i>Mtb</i> inhibitory effect	Won Hyung Choi, Korea
16-Sep	P2-LB53	Harnessing RNA-dependent protein folding for development of a Sero-diagnostic antigen of Middle East respiratory syndrome coronavirus	YOUNGSEOK KIM, Korea
16-Sep	P2-LB54	Severe fever with thrombocytopenia syndrome associated with hemophagocytic lymphohistiocytosis: review of 7 cases with bone marrow study	Sunmin Park, Korea
16-Sep	P2-LB55	Diverse electrocardiographic changes in severe fever with thrombocytopenia syndrome (SFTS)	Changin Noh, Korea
16-Sep	P2-LB56	Comparative analytical performance of various real-time RT-PCR diagnostic assays for detection of henipaviruses	Hansaem Lee, Korea
16-Sep	P2-LB57	Molecular characteristics of circulating A(H3N2) influenza viruses during the early period in the 2016–2017 influenza season in South Korea	sooyeon lim, Korea
15-Sep	P1-LP01	Evaluation of antimicrobial activity of soil-derived <i>Streptomyces</i> isolates	Thi Thu Hoai Nguyen, Vietnam
15-Sep	P1-LP02	Correlation of antibiotic susceptibility and prevalence of <i>nfxB</i> mutation among clinical <i>Pseudomonas aeruginosa</i> isolates	Thi Thu Hoai Nguyen, Vietnam
15-Sep	P1-LP03	Antibiotic susceptibility profile of commensal <i>Staphylococcus aureus</i> isolates	Thi Thu Hoai Nguyen, Vietnam
15-Sep	P1-LP04	A specific screening method for the development of anti-HIV drug targeting HIV-1 transcription.	YoungHyun Shin, Korea
15-Sep	P1-LP05	A case of pneumonitis in a cancer patient treated with pembrolizumab	Jiho Jun, Korea
15-Sep	P1-LP06	Efficacy of Rapid multiplex polymerase chain reaction testing for respiratory infectious disease of pediatric inpatient	Jae Min Lee, Korea
